

# Patient Rights and Notification of Physician Ownership

EVERY PATIENT HAS THE RIGHT TO BE TREATED AS AN INDIVIDUAL AND TO ACTIVELY PARTICIPATE IN HIS/HER CARE. THE FACILITY AND MEDICAL STAFF HAVE ADOPTED THE FOLLOWING PATIENT RIGHTS AND RESPONSIBILITIES, WHICH ARE COMMUNICATED TO EACH PATIENT, OR THE PATIENT'S REPRESENTATIVE, IN ADVANCE OF THE PROCEDURE/SURGERY.

## **PATIENT RIGHTS:**

- To receive treatment without discrimination as to age, race, color, religion, sex, national origin, disability, culture, economic status or source of payment.
- Considerate, respectful, and dignified care, provided in a safe environment, free from any form of abuse, neglect, harassment or reprisal.
- To know the identity and professional status of individuals providing services to them, and to know the name of the physician who is primarily responsible for coordination of his/her care.
- To receive information in a manner that the patient understands. Communication is provided in a manner that facilitates understanding by the patient.
- To receive information from his/her physician about his/her illness, his/her course of treatment and his/her prospects for recovery in terms that he/she can understand.
- To receive as much information about any proposed treatment or procedures as he/she may need in order to give informed consent prior to the start of any procedure or treatment.
- To be provided privacy and security of self and belongings during the delivery of patient care service.
- When it is medically inadvisable to give such information to a patient, the information is provided to a person designated by the patient, or to a legally authorized person.
- To make decisions regarding the health care that is recommended by the physician. Accordingly, the patient may accept or refuse any recommended medical treatment. If treatment is refused, the patient has the right to be told what effect this may have on their health, and the reason shall be reported to the physician and documented in the medical record.
- Full consideration of privacy concerning his/her medical care program. Case discussion, consultation, examination and treatment are confidential and shall be conducted discretely.
- Confidential treatment of all communications and records pertaining to his/her care and his/her stay in the facility. His/her written permission shall be obtained before his/her medical records can be made available to anyone not directly concerned with his/her care. The facility has established policies to govern access and duplication of patient records.

## **Rights and Respect for Property and Person**

### ***The patient has the right to:***

- Exercise his or her rights without being subjected to discrimination or reprisal.
- Voice a grievance regarding treatment or care that is, or fails to be, furnished.
- Be fully informed about a treatment or procedure and the expected outcome before it is performed.
- Confidentiality of personal medical information.

## **Privacy and Safety**

### ***The patient has the right to:***

- Personal privacy
- Receive care in a safe setting
- Be free from all forms of abuse or harassment

## **Advance Directives**

***You have the right to information regarding Advance Directives and this facility's policy on Advance Directives. Applicable state forms will be provided upon request.***

The Columbus Eye Surgery Center respects the right of patients to make informed decisions regarding their care. If a patient becomes unable to make a decision regarding his/her own care, Center staff will consult the Advance Directives, medical power of attorney, or patient representative or surrogate, if available. Due to the outpatient nature of an ambulatory surgery center, this Center has adopted the position that an ambulatory surgery center setting is not the most appropriate setting for end of life decisions. Therefore, it is the policy of this surgery center that in the **absence of an applicable properly executed Advance Directive**, if there is deterioration in the patient's condition during treatment at the surgery center, the personnel at the center will initiate resuscitative or other stabilizing measures and transfer the patient to an acute care hospital. At the acute care hospital, further treatment decisions will be made. If copies of the patient's Advance Directives have been provided to the surgery center, copies will be sent with the patient to the hospital.

If the patient has Advance Directives which have been provided to the surgery center that impact resuscitative measures being taken, we will discuss the treatment plan with the patient and his/her physician to determine the appropriate course of action to be taken regarding the patient's care.
